

Flame Stop Ltd / FS Contracts Ltd

Environmental Policy

Flame Stop Ltd / FS Contracts Ltd are committed to being an Environmentally Friendly business, and adopts a pro-active approach to protect the Environment thus minimising the effect we have on the Environment.

The principal of sustainable development is important to us and we strive to use renewable resources wherever possible.

We are committed to reducing waste generation through conservation and recycling measures and environmental factors are taken into account in all aspects of our operations.

We adhere to all applicable Irish and EU Environmental Laws, and with the requirements of ISO 14001:2015 environmental standard to which the organisation subscribes, which relate to its environmental aspects and in addition are guided by the following principles:

- Promoting Environmental awareness amongst all Staff.
- By working closely with our Interested Parties to promote Environmental awareness in our relationships.
- Ensuring the prevention of pollution through regulated and controlled procedures.
- We shall also complete regular audit of our systems and act on any risk or feasible opportunity to improve issues that are identified.
- We will also correct any nonconformities that arise.
- By regular monitoring of our process flows to ensure full compliance with our policy and the context of the organisation and its strategic direction.
- Reducing Energy and Resource consumption within the company.
- We continually improve our environmental management system and enhance environmental performance through the setting and reviewing of objectives and targets as part of our annual management review meeting and as circumstances require.
- as part of our environmental management systems.
